

ADLER & BRO.
Boots & Shoes

No. 261 Main Street.

(Leubrie's Old Stand).

MEMPHIS, TENN.

EX-GOVERNOR Marks will speak at
Trenton next Monday.

THE item of yesterday estimating
the cotton crop of the State at 1,300,
000 bales, referred to Texas, although
the name of the State happened to be
omitted. This is a splendid increase
since the census of 1880, which showed
that the entire product for the pre-
vious year was 803,642 bales—a differ-
ence of 496,358 bales in three years.

THE House Committee, which pre-
pared the River and Harbor Bill, is
composed of the following members:
Messrs. Page, of California, Chair-
man; Richardson, of New York;
Townsend, of Ohio; Horr, of Michi-
gan; Washburn, of Minnesota; Can-
dler, of Massachusetts; Ward, of Penn-
sylvania; White, of Kentucky; George,
of Oregon; and Gunther, of Wisconsin,
Republicans; and Reagan, of Texas;
McLane, of Maryland; Gibson, of
Louisiana; Ross, of New Jersey, and
Herndon, of Alabama, Democrats.

MAJOR J. J. Busby is very hopeful
as to the speedy completion of the
railroad under contract from Memphis
to Holly Springs. Four or five hun-
dred convicts are at work at the Holly
Springs and coming this way. They
cannot be worked out of the
State, but it is believed that the con-
tract will be sub-let this side of the
Mississippi line to responsible con-
tractors and that work will probably
be commenced from this city by the
20th inst. It is not improbable that the
cars will be running through by the
end of the year.

OLD Father Hawkins made a con-
spicuously round statement of the
other night, in regard to the funding
business in New York, where the great
State seal has been taken to facilitate
the business. He said that about six
million dollars had been presented to
be funded, but he took care not to say
how much, if any, had been funded.
Then he made the ridiculous assertion
that nearly all the State debt would be
funded by the end of the year, and
inquired "What are you going to do
about it?" Well, it is
not necessary to answer that question
now, but if an attempt is made to force
matters against the will of the people,
a Legislature will be elected that will
represent their side of the question
irrespective of party, and then some-
body will say to the bondholders,
"now, what are you going to do about
it?"

"CONVENTION" was voted down
Thursday by an almost unanimous
vote. It is generally admitted that
the Constitution should be revised,
but it is a very serious matter to
change the organic law of a State and
it should never be done in a time of
popular excitement, or for the benefit
of any particular party. The Consti-
tutional law of this country is the out-
growth of centuries of discussion,
thought and struggles. Changes be-
come necessary occasionally with the
growth of the country, increase of
wealth and population, but the funda-
mental principles undergo no change,
the protection of law is guaranteed to
all alike, and all Constitutions look
to this end. Methods have to be
changed from time to time, to facili-
tate the enforcement of common and
statutory law. Circumstances are
greatly altered since the adoption of
the present constitution of Tennessee;
but while we have so much disruption
and factional disturbance, it is better
to defer a constitutional convention a
few years longer, at least. This view
was so generally accepted by thinking
men, irrespective of party, that the
question was hardly discussed at all.

Wire Fences as Telephones.

New York Herald.

Some observing genius has suggested
that the loneliness of home life on the
Western prairies, where farmhouses
are often miles apart, may be allevi-
ated by a general utilizing of fence
wires for telephone communication.
The plan certainly has attractive
features. If it were adopted, the
monotony of home life that so can-
not get no comfort indoors except by
slapping the children and pecking at her
husband, can drop into a rocking
chair near the telephone and chat as
cheerily with a distant neighbor as if
she had never had a trouble in her
life.

Tennysen's Princess Modernized

Cincinnati Penny Paper, 2.

The young ladies' encampment at
Aurora, Indiana, came to an end last
Saturday, to the great relief of neigh-
boring young men. They had their
tents pitched in a shady ravine, about
five miles from Lawrenceburg, and
did their own cooking, eating and
sleeping, without the assistance of a
single male. Not a masculine being
was allowed in sight of the camp during
the time, and when one passed by he
had to run the gauntlet of fifty pairs
of inquisitive eyes and as many sharp
tongues. A party of young men from
Cincinnati were fishing in the neigh-
borhood last Friday night, when one
of them concluded to charge the
enemy and capture one feminine heart
at least. He left amid the chaff of his
admirer friends. An hour later he
came back, dressed in an old calico

YELLOW FEVER

Increasing at Matamoras—Seven
Deaths and Over Three
Hundred Cases.

One Death and Twenty Cases at
Brownsville.

Rigorous Quarantines Every-
where.

St. Louis, August 5.—The Repub-
lican received, very late last night, the
following special from Laredo, Texas:
The fever prevailing at Matamoras is
reported to be increasing. Seven
deaths occurred there to day. There is
no exact account of the total number
of cases there, but it is reported to be
between 300 and 400. The disease
prevails among the higher classes as
well as among the lower. There have
been a number of deaths among the
former. Many of the stores are only
open part of the day, which gives the
city a very desolate appearance. Last
night Marino Flores, a Mexican drug-
gist, the first case of the fever in
Brownsville, died. He was
taken in a cart to the
graveyard and buried this morning.
The case in the garrison at Fort
Brown died this morning. His name
was Bunting, and he belonged to the
Nineteenth United States Infantry
band. The physician says his case
was not yellow fever but a pernicious
type of congestive hemorrhage and
malaria fever. There are now reported
to be in all twenty cases of the fever in
Brownsville, and all are doing well.
A man named Chamberlain is sick at
King's Ranch, 140 miles from Laredo,
with a bad fever. A Mexican mail
carrier from there says he has black
vomits. A doctor has been sent from
Corpus Christi to examine the case.
The Mayor of Laredo is to take active
measures to-morrow towards a strict
quarantine against infected places, and
the attempt will be made to induce
Navarro and Laredo to do the same.
That communication between these
places may not be interrupted. The
Texas & Mexican railway officials say
that if the fever goes to Corpus Christi
they will stop the running of all trains.
Everything is quiet at Rio Grande
City. A strict quarantine is to be
kept till all danger is over. The citi-
zens of San Diego held a meeting and
telegraphed the Governor protesting
against the removal of the troops from
Brownsville to the old fort at that
place.
